Holley is now offering budget friendly fabricated intake manifolds for LS, Small Block Chevy and Small Block Ford engines in carbureted and EFI versions!

Features:

- 3mm (1/8") thick T6061 Sheet Aluminum construction, more durable than competitive intakes
- Available in 92mm and 102mm bore Throttle Body Openings
- 100% TIG welded
- Available for EFI and Carbureted applications with custom Holley Sniper logo
- EFI Intakes include 3/8" Fuel rail kits (Sniper logo laser engraved)
- Runner lengths with tapered top on EFI intakes designed to increase velocity and more evenly distribute airflow to all 8 cylinders
